COMPANY PROFILE

Discover Excellence in Commercial Fitness with Wder Fitness

Hello, my name is Abner, your international sales representative at Wder Fitness, where we dedicate ourselves to the design and manufacturing of premium commercial fitness equipment. Nestled within a 20,000 square meter production facility in China, our brand stands for durability, innovation, and excellence.

Our skilled workforce of 200, bolstered by a creative R&D team exceeding 50 members, works tirelessly to engineer and produce an elite range of fitness products. Wder Fitness specializes in high-end commercial strength apparatus, dynamic spinning bikes, treadmills, and a variety of aerobic training equipment. We also offer a comprehensive suite of free weights including dumbbells, kettlebells, Olympic bars, and barbells, along with essential accessories like high-density floor mats.

Committed to quality, every product from Wder Fitness is designed to meet the rigorous standards of GB17498-2008 and the European EN-957 regulation, certified by both the commercial inspection bureau and customs to ensure excellence. Our global footprint extends across over 20 countries, with a strong presence in markets such as the USA, UK, Germany, Greece, South Korea, Italy, and Australia.

At Wder Fitness, we are not just selling equipment; we are creating a robust and reliable fitness experience that stands the test of time. Connect with us to find out how we can support your business with our top-tier fitness solutions.

Feel free to tailor this introduction to better fit specific platforms or to highlight different aspects of the business as needed.

13. Revolving solid multi-purpose bar Specifications: 30x15x21cm 3kg
14. Revolving ergo tricep pressdown Specifications: 27x16cm 3.6kg
15. Solid tricep press down bar Specifications: 19x18cm 1.5kg
16. Solid tricep press down bar Specifications: 19x18cm 1.5kg

FULL FINE SOLID COLOR RUBBER FLOORING

PRODUCT INTRODUCTION

The entire body of the fine solid color rubber floor is made of fine rubber particles, which are molded and hot solidified with environmentally friendly polyurethane adhesive. The product has a double-layer structure, with the colored layer as the surface layer. It complies with the national standard GB/T14833 and can be customized with the new national standard GB36246

High elasticity

Non-slip

Compression resistance

Impact resistance

Protective type

Wear resistant

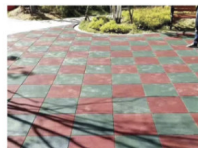

Shock absorption and sound insulation

FULL FINE STARRY SKY RUBBER FLOORING

PRODUCT INTRODUCTION

Full fine starry sky rubber flooring is mainly made of full fine rubber particles and colored EPDM particles, which are molded and thermosetting with environmentally friendly polyurethane adhesive. The product has a double-layer structure, with a colored layer as the surface layer. It complies with the national standard GB/T14833 and can be customized with the new national standard GB36246

STARRY SKY COMPOSITE RUBBER FLOOR (FLOWER BOTTOM)

PRODUCT INTRODUCTION

Starry Sky Composite Rubber Flooring is mainly made of natural rubber particles and environmentally friendly rubber particles in different colors. The product has a two-layer structure with colored dots as the surface layer. The execution standard is GB/T14833, and new GB/T36246 can be customized.

INTRODUCTION OF RUBBER COIL

PRODUCT INTRODUCTION

The rubber coil is made of natural rubber, EPDM rubber and environmentally friendly polyurethane adhesive as the main raw materials, which is made by compact and rotary cutting. It has stable performance, environmental protection and pollution-free, shock absorption and noise reduction, non-slip and breathable, beautiful appearance, easy installation and wide use.

High elasticity

Non-slip

Compression resistance

Impact resistance

STAR RUBBER COIL

Star rubber coil is made of natural rubber, EPDM rubber and environmentally friendly polyurethane adhesive as the main raw materials. The products are made by compact and rotary cutting, with dense and bright color. The implementation standard is GB/T14833, and the new national standard GB36246 can be customized.

FULL COLOR, COLORFUL RUBBER COIL (NEW NATIONAL STANDARD)

Full color and colorful rubber coil is made of EPDM rubber and environmentally friendly polyurethane adhesive as the main raw materials. The product is compact and bright in color after compact and rotary cutting. Implement the new national standard GB36246.

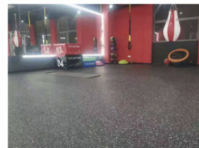

BRIGHT CLEAN RUBBER COIL (NEW NATIONAL STANDARD)

Bright clean rubber coil with EPDM rubber, environmental protection polyurethane adhesive, water-based coating as the main raw materials, the product by compact, rotary cut, the whole body, bright color, fast fading. Implement the new national standard GB36246.
